

WARRANTY

The materials and methods of fabrication for the products provided by ATECS Inc. are warranted to comply with ATECS design specifications.

ATECS warrants its products to be free of defects in materials and workmanship under intended normal use, when installed and operated in accordance with factory recommendations and the ATECS Installation Guide (Failure to follow ATECS Installation Guide **VOIDS** this Warranty.), for a period of 18 months from shipment or 12 months after initial equipment startup whichever occurs first. Equipment found to be defective will be replaced, or repaired as determined by ATECS, parts and/or material and shipping included.

Damper shall be tested when the first 1 or 2 dampers, per size, are installed to verify fit and adjustment ports align with the adjustment assemblies. If a problem is determined, immediately contact ATECS. The balance of the dampers shall not be installed but returned via Returned Material Authorization (RMA), per ATECS return procedure.

The defective unit is to be removed from the cleanroom or other facility by the purchaser and reinstalled and readjusted by the purchaser after repair or replacement.

Items Not Covered By This Warranty:

1. Cost of labor to remove the Units from the ceiling grid and/or from filter or flooring.
2. Reinstallation and readjustment.
3. Loss of time.
4. Loss of supplies, (screws, tape, etc.), used to install units if not done according to ATECS Installation Guide.
5. Environmental factors, such as corrosion, which may result from reactions with the materials utilized in the construction of the unit.
